

HOPE for TomorROW 2023 registration steps

email hope4tomorrowvt@gmail.com with any questions

1. Start here  <https://secure.qgiv.com/event/H4T2023/>
2. Click **Register** at the top of the page or **Register For This Event** below the thermometer

3. Select how you want to participate. To create a team, register as a team captain. You'll need to decide on a 4-person boat or a 6-person boat (which can include a 7th non-rowing passenger).

TIP If you are joining a team as a rower, but you are not sure if it is a 4 or 6 person team, don't worry! You can search for the team name or team captain in the next step.

4. Complete personal information (name, address, etc)
Here you have an option to register additional participants.

TIP If you plan to fundraise together, select I'll manage their fundraising 
and perhaps Use my address Use my phone

Otherwise, you will need to provide unique email addresses for each participant.

****** This is particularly helpful for a parent registering a child.

5. NEW this year is the option to *race*. The course will be incorporated into the regular route across the lake and be timed by each participating boat. Select YES here if you are considering!

TIP Use the optional field below T-shirt size to share any additional information. For example, *my team is more than 6 people and will require a second boat, or we only have 5 team members and would like you to fill the 6th spot with an individual rower.*

6. Optional raffle tickets... Each participant will be given one raffle ticket at the event as part of the registration. Additional raffle tickets may be purchased at the time of registration and/or at the event for \$5 each. Virtual rowers will be entered into a drawing for a national gift card.

****** The prize bundles are incredible. [Here is a sneak peek at prize sponsors.](#)

7. Check out to complete registration.

8. Create an account and a Fundraising page. Share with your peeps!

TIP If you don't remember creating a password or if you can't remember your password, use the forgot password workflow.

Fundraising is NOT required. However the fundraising platform provides a way to engage and educate more people in our mission. Any money generated will help Project HOePpnEr and Lake Champlain Maritime Museum continue programs to support local teens.

TIP Share this option for giving: text ROW to 50155.

****** Prizes will be awarded to the top individual fundraisers,
and for team spirit at the event – costumes encouraged!!
